

# AI GOVERNANCE, POLICY & REGULATORY LEADERSHIP FOR GOVERNMENT (AIGPRL)®

OFFERED BY: GLOBAL INSTITUTE FOR LEADERSHIP,  
HUMAN RESOURCES & PROJECT EXCELLENCE (AGILE HRP®)

## COURSE INTRODUCTION (EXECUTIVE-LEVEL POSITIONING)

The AI Governance, Policy & Regulatory Leadership for Government (AIGPRL)® program is an advanced executive course designed to prepare senior government leaders, policymakers, regulators, and advisors to govern, regulate, and oversee artificial intelligence responsibly at scale.

As AI rapidly reshapes public services, national security, economic development, and citizen rights, governments face growing pressure to establish clear policies, ethical safeguards, regulatory frameworks, and accountability mechanisms. This course focuses on the strategic governance of AI—not system development—empowering leaders to set rules, guardrails, and oversight structures that balance innovation, public trust, and legal compliance.

Participants will gain a deep understanding of AI policy design, regulatory models, risk-based governance, cross-border coordination, and public accountability, making this program highly valuable for national governments, regulators, and international institutions.

## WHY THIS COURSE IS HIGHLY SOUGHT AFTER

- ✓ Global shortage of AI policy & governance leaders
- ✓ Growing AI regulations worldwide (EU, US, UK, GCC, Asia-Pacific)
- ✓ Demand from ministries, regulators, central agencies, and donors
- ✓ Required for digital government, smart nation, and AI strategy roles
- ✓ Essential for senior executives—not technical staff

## TARGET AUDIENCE

- Ministers, Permanent Secretaries & Deputy Ministers
- Senior Civil Servants & Agency Heads
- Policy Directors & Legislative Advisors
- AI, Digital, and Data Governance Officers
- Regulatory & Oversight Authorities
- International Development & Multilateral Agency Leaders
- Government Legal, Ethics & Compliance Executives

## PROGRAM STRUCTURE

- **Total Modules:** 10
- **Submodules:** 4 per module
- **Level:** Executive / Senior Leadership
- **Delivery:** Executive Virtual Cohorts | In-Person Leadership Retreats
- **Technical Requirement:** None (policy & governance focused)

# COMPLETE COURSE SYLLABUS

## Module 1: AI as a Governance & Policy Challenge

1. AI's Impact on Government Power and Decision-Making
2. From Digital Government to AI-Enabled State
3. Risks of Unregulated AI in Public Institutions
4. The Role of Executive Leadership in AI Governance

## Module 2: National AI Strategies & Public Policy Design

1. Components of National AI Strategies
2. Aligning AI Policy with Development Goals
3. Public Value Creation vs Innovation Risk
4. Policy Trade-offs and Strategic Choices

## Module 3: AI Regulatory Models & Global Approaches

1. Risk-Based vs Sector-Based AI Regulation
2. Comparative Review: EU, US, UK, Asia, GCC
3. Regulating AI Without Stifling Innovation
4. Regulatory Readiness & Institutional Capacity

## Module 4: AI Risk Management & Oversight Frameworks

1. Systemic, Operational, and Ethical AI Risks
2. Model Accountability and Explainability
3. Oversight Committees, Audits, and Controls
4. Government AI Risk Registers

## Module 5: Ethics, Human Rights & Public Trust

1. Ethical Principles for Government AI
2. Bias, Fairness, and Social Impact
3. Human-in-the-Loop Governance
4. Maintaining Legitimacy and Public Confidence

## Module 6: Legal, Privacy & Data Protection Implications

1. AI and Administrative Law
2. Data Protection, Consent, and Surveillance Risks
3. AI in Law Enforcement and Social Services
4. Legal Liability and Accountability

## Module 7: Institutional AI Governance Models

1. Centralized vs Federated AI Governance
2. Roles of CIOs, CDOs, Ethics Boards, and Regulators
3. Procurement, Vendor Risk, and AI Contracts
4. Lifecycle Governance of AI Systems

## Module 8: Cross-Border AI Governance & International Coordination

1. AI and Global Governance Challenges
2. International Standards and Harmonization
3. AI in Trade, Security, and Diplomacy
4. Role of Multilateral Institutions

## Module 9: Governing AI-Driven Organizational Change

1. Workforce Impact and Policy Responses
2. AI Literacy for Senior Officials
3. Managing Resistance and Institutional Culture
4. Measuring AI Governance Maturity

## Module 10: Executive Capstone – National or Agency AI Governance Blueprint

1. AI Governance Gap Analysis
2. Policy, Regulation, and Oversight Design
3. Risk, Ethics, and Compliance Alignment
4. Executive Policy Presentation

# COURSE ALIGNMENT & GLOBAL STANDARDS ORIENTATION

## ISO-Aligned & Governance Frameworks

This program is aligned with:

- **ISO/IEC 38500** – Governance of IT & Digital Systems
- **ISO/IEC 23894** – AI Risk Management
- **ISO 22301** – Institutional Resilience
- **ISO 9001** – Policy Quality & Continuous Improvement

## Accreditation & Credentialing Best Practices

Program development follows principles informed by:

- **American National Standards Institute (ANSI)**
- **ANAB**
- **NCCA**

*(Standards-aligned, accreditation-informed, no over-claiming.)*

## ASSESSMENT & CERTIFICATION

- **Assessment Components**
  - Policy case studies
  - Regulatory analysis exercises
  - Executive capstone project
- **Final Exam**
  - 100 MCQs
  - 120 minutes
  - 70% pass mark

## PROFESSIONAL DESIGNATION AWARDED

### **Certified AI Governance & Policy Leader (CAIGPL)®**

Includes:

- Digital Certificate
- Executive Digital Badge
- Global Credential Verification via AGILE-HRP®

## GLOBAL DEMAND & CAREER OUTCOMES

Graduates are prepared for roles such as:

- AI Policy Director
- Government AI Governance Lead
- Regulatory Authority Advisor
- Digital Government Executive
- Multilateral AI Policy Specialist

This certification is **highly attractive to governments, regulators, donors, and international organizations worldwide.**

## STRATEGIC PORTFOLIO FIT (INTERNAL USE)

- **AI-Enabled Government Performance Improvement** → Results & outcomes
- **AI Applications in Government Administration** → Operations & execution
- **AI Governance, Policy & Regulatory Leadership** → Rules, oversight & trust

Together, these form a **complete, world-class government AI certification stack.**
